Gargle Listerine to attack cold germs in mouth and throat

AFTER any long exposure to cold air we're hoarse. Gargle Listerine when you get home. Medical records show that late season low ball pneumonia, particularly, takes their toll in health. Heavy chest colds often follow a day in the open. The average use of Listerine at a garage when you catch home is a precautionary measure which may spare you such a serious complication.

Listerine, by killing millions of disease germs in the mouth and throat, keeps them under control at a point where they should be controlled—before entrance to the lungs.

Listerine was made in 1811, '32 and '34 have shown Listerine a amazing power against the common cold and sore throat.

Year in, year out, those who used Listerine once a day or often, caught about half as many colds and sore throats as non-users. Moreover, when Listerine came out, colds and sore throats were extremely mild, while non-users reported more severe developments.

At the first symptoms of a cold or sore throat, gargle full strength Listerine. If no improvement in three days, repeat the gargle in two hours. While in ordinary sore throat, may yield quickly, a cold with far more frequent gargling.

Keep a bottle of Listerine handy in home and in the office and use it occasionally. Listerine Pharmaceutical Co. (Canada) Ltd., Toronto, Ont.

There's nothing unusual about "Based on My Ability to Play" except the professional indifference of its performers. It should be inescapably substantiating to everyone except those who find musical genius and meaning in the non-classic or public spheres. You can enjoy both when done by experts, like it used to be.

THE NEW FORD V-8 FOR 1936

Disappointed new beauty of line has been combined with the outstanding comfort, safety and performance that have put the Ford V-8 in a class by itself. The car that led all others in 1935 has been made still better for the new year. It has been proved by the past and improved for the future. . . . The New Ford V-8 has proven every modern feature with the assurance of satisfactory service. There are no experiments in it—nothing about it that has not been tried and tested. This means a great deal to motorists—especially in mechanical construction and in everything that concerns safety. . . . The Ford V-8 gives you fine performance because of its V-8 engine—it stands out also because it is such a safe car. It has a genuine unit body, electrically welded for mild strength. All body types have Safety Glass throughout at no additional cost. The big, powerful Super-Safety Brakes stop the car easily, quickly and with certainty. Ease of control—steers a Ford known—has been increased by a new steering gear and new rate of shifting gears. . . . The Ford V-8 for 1936 is the best, safest, most dependable Ford ever built.

Why are Wedding Rings worn on the third finger?

When someone is married, it is believed that a spouse and divine love are joined. The third finger of the left hand has been designated as the place where the divine spark lives. This old belief has been designated as the center of the universe, the place where the divine spark lives.

This belief, however, that the heart lives in the third finger, is based on the fact that the heart lives in the third finger of the left hand. This old belief has been designated as the center of the universe, the place where the divine spark lives.

When you wear that wedding ring, you are wearing a symbol of the divine spark. The heart lives in the third finger of the left hand. This old belief has been designated as the center of the universe, the place where the divine spark lives.

Here's a Picture you can make *Tonight!*

LONG FALL EVENINGS bring gay times at home. It's a side of life that your camera shouldn't miss. Make pictures tonight. Or tomorrow night. And certainly at Christmas time when the family foregather.

It's easy to take indoor pictures. Any camera that can be set for "time" will do.

Get Mazda Photoflash or Photoflood bulbs from your dealer—load your camera with Kodak "SS" Film, particularly adapted to night picture taking, or use Kodak Verichrome Film which will also give very good results. Follow the diagram and information given here to make a picture like the one shown, with Photoflash.

FREE FOLDER Gives complete instructions on night photography—suggests subjects—tells how to make pictures at night with any camera that can be set for "time." Get your copy from your Kodak dealer, or write today to Canadian Kodak Co., Limited, Toronto 9, Ontario.

● In Canada "Kodak" is the registered trade mark and sole property of Canadian Kodak Co., Limited.

HERE'S HOW YOU DO IT

Load with Kodak "SS" or Verichrome Film. Place your camera on firm table, eight feet from subject as shown in diagram. Hold Photoflash bulb, in reflector, above and to the side of camera. Set camera for "time." Open shutter—flash bulb—close shutter.

If you have a Camera with a fast Lens... $f/6.3$ or faster—you can make snapshots—instantaneous exposures—indoors at night, with two or three Mazda Photoflood bulbs and Kodak "SS" Film. Open the lens to $f/6.3$ —set for 1/25 second. Hold the camera in your hands just as you would outdoors... then snap the picture. It's a new picture-making thrill.

HERE'S ALL YOU NEED

Kodak "SS" or Verichrome Film. Mazda Photoflash Bulbs—give a brilliant flash... 15¢ each. Any box or folding camera with "time" adjustment will do. The picture (enlarged) at upper left was taken with BROWNIE SIX 20-2 1/4" x 3 1/4" pictures. Costs \$3.

Night Pictures with Any Camera... With any camera that may be set for "time," you can make quick time exposures at night with Mazda Photoflood bulbs or make Photoflash shots as here indicated. Photoflood bulbs cost 25 cents, last for many pictures. Load your camera with Kodak "SS" or Verichrome Film. Set your dealer for information or write for folder.
